

- Use of AccentView 3DHD camera for documenting properties pre and post loss for insurance agents and adjusters.
- Office is located within Milwaukee City limits. We are halfway between both freeways, giving us outstanding response times for emergency situations.
- Use of Technology! Not only do we have the 3DHD camera to use but we also use BuilderTrend, which has a customer portal so property owners can view the status of their job at any time. It's a great way for us to communicate with clients, agents and subcontractors. Docu-Sign cuts down on the use of paper as we streamline our processes to discontinue having several pages of printed documents to sign!
- Our People! We are fully licensed, bonded and insured, our employees are licensed in fire, water and mold remediation. We are an IICRC certified firm.
- Our willingness to work in areas other companies are unwilling to go.
- Our Owner! Dean Rossey, Jr really knows the industry and how to lead his team!
- Our flexibility! We have the in-house staff that provide us the nimbleness to address emergency responses while continuing to complete reconstruction jobs without having to stop work and change directions.
- Our experience! Our employees work experience combines to over 200 years of experience and knowledge in the industry. This knowledge makes us the experts in the industry when it comes to fire, water and structural damage repair, as well as personal property processing!
- Our contents processing room. An ozone/hydroxyl deodorization room, upholstery cleaning/drying room, ultrasonic tanks and commercial drying unit allow us to clean, deodorize and store client's personal property in a climate-controlled facility.

- Our Facility! Our 21,000 square foot warehouse facility provides us the space to process and store client's personal property, as well as an indoor spray booth (to continue painting in the colder months), equipment storage and room to park vehicles.
